

## AtaiBeckley Launches Patient Impact Grant Program for Mental Health Non-Profit Organizations

May 28, 2026

- Three \$20,000 grants open to non-profit, mission-driven organizations working across community support, education and stigma reduction, and ecosystem innovation and independent research

NEW YORK, May 28, 2026 (GLOBE NEWSWIRE) -- AtaiBeckley Inc. (NASDAQ: ATAI) ("AtaiBeckley" or "Company"), a clinical-stage biotechnology company on a mission to transform patient outcomes by developing rapid-acting, durable and convenient mental health treatments, today announced the launch of its Patient Impact Grant Program, which will award three grants of \$20,000 each to non-profit, mission-driven organizations improving mental health outcomes through community leadership, education, and innovative research.

### Grant Funding Areas

|                                                         |                                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Community Support:</b>                               | Organizations who support equitable access to existing and emerging mental health treatments. Initiatives may focus on reducing barriers, building trust, and strengthening support for community-led or culturally responsive approaches, particularly among underserved or historically excluded populations. |
| <b>Education &amp; Stigma Reduction:</b>                | Organizations who advance patient-centered education and public-facing initiatives that promote accurate understanding of mental health. Initiatives may focus on increasing awareness, reducing stigma, and fostering responsible engagement among patients and communities.                                   |
| <b>Ecosystem Innovation &amp; Independent Research:</b> | Organizations who drive ethical innovation and research in the mental health ecosystem. Initiatives may expand patient access, strengthen support systems, or develop patient-informed approaches that improve outcomes and community trust.                                                                    |

Grant recipients will be selected by a review panel comprised of Kevin Craig, MD, Chief Medical Officer at AtaiBeckley, and Caroline Lilley, Head of Patient Impact at AtaiBeckley, along with Dr. Jessica Jackson, Vice President of Alliance Development at Mental Health America (MHA). Dr. Jackson is participating as an external reviewer, and Mental Health America is not involved in administration of the broader grant program.

Applications are open now and will close on September 1<sup>st</sup>. More information, including application details, can be accessed [here](#).

Dr. Kevin Craig, Chief Medical Officer at AtaiBeckley, said: *"I am pleased to launch the Patient Impact Grant Scheme in Mental Health Awareness Month to support organizations doing vital, often under-resourced, work within communities and the mental health ecosystem. We know that real progress in mental health doesn't happen in isolation - it happens when we innovate responsibly, listen to patients, and invest in the people driving change on the ground. We are proud to amplify that impact through this Grant Program, and we look forward to reviewing the applications."*

Caroline Lilley, Head of Patient Impact at AtaiBeckley, also said: *"The AtaiBeckley Patient Impact team seeks to complement scientific innovation with responsible ecosystem support. We recognize that patient outcomes are influenced not only by treatment advances, but also by awareness, access, trust, and the strength of community infrastructure. AtaiBeckley Patient Impact aims to support progress across these broader drivers of mental health outcomes, and the Patient Impact Grant Program represents the next evolution of this commitment, introducing a transparent and structured way to support independent initiatives working to strengthen these foundations."*

### About AtaiBeckley Inc.

AtaiBeckley is a clinical-stage biotechnology company on a mission to transform patient outcomes by developing rapid-acting, durable and convenient mental health treatments. AtaiBeckley's pipeline of novel therapies includes BPL-003 (mebufotenin benzoate nasal spray) for treatment-resistant depression (TRD), VLS-01 (DMT buccal film) for TRD and EMP-01 ((R)-MDMA HCl) for social anxiety disorder. BPL-003 is in Phase 3 planning, VLS-01 and EMP-01 are in Phase 2 clinical development. The Company is also advancing a drug discovery program to identify novel, non-hallucinogenic 5-HT2AR agonists for opioid use disorder and TRD. These programs aim to create breakthroughs in mental health through transformative interventional psychiatry therapies that can integrate seamlessly into healthcare systems.
